REASONS FOR ALLOWANCE

1. Claim 2 is allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of claim 2, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the features in claim 2. In this regard, applicant's arguments, Remarks, filed October 23, 2003, with respect to the rejection claim 2 under 35 U.S.C. 102 as anticipated by Kojima (English abstract of JP 04-093908, reference AR in applicants' IDS) have been fully considered and are persuasive. Particularly persuasive is the following excerpted argument:

“The purpose of the Kojima invention is not to detect the number of positions in a microscope nosepiece or slider, it is to store the different focal positions for each objective. Thus, the positions that are stored are not the positions of the objectives on the revolver, but the stage positions corresponding to the different focal lengths. Thus, the Examiner's contention that Kojima teaches 'comparing this maximum position to a position registered in a memory' is incorrect since Kojima is referring to stage positions and the invention involves revolver positions.”

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
